OBJECTIVE

A passionate and motivated software developer with a strong foundation in game development, programming, and creative problem-solving. Eager to contribute technical skills and innovative thinking to real-world projects while continuously growing as a professional.

EDUCATION

Bachelor of Computer Applications (BCA) (2023 – 2026)

S.D. College Barnala – Affiliated with Punjabi University, Patiala

TECHNICAL SKILLS

Programming Languages	C, C++, Python, Java, HTML, CSS
Game Development	Unreal Engine 5, Blueprint Scripting, Gameplay Systems
3D & Design	Blender, Quixel Megascans, Canva, CapCut
Tools & Software	Visual Studio, VS Code, Git & GitHub, OBS Studio
Office & Productivity	Microsoft Office (Word, Excel, PowerPoint)
Core Concepts	OOP, API Integration, Game Design, UI/UX Basics

PROJECTS

■ Checkpoint Car Racing Game — Unreal Engine 5 (2026)

- Developed a full 3D checkpoint-based car racing game using Unreal Engine 5 and Blueprint scripting.
- Implemented vehicle physics, checkpoint tracking, lap timer, and dynamic camera systems.
- Submitted with a complete technical project report covering design, development, and testing.

■ Personal Portfolio Website (2026)

- Built a dark cyberpunk-themed portfolio from scratch with particle network background and Three.js 3D scene.
- Integrated EmailJS for functional contact form and responsive layout for mobile compatibility.
- Showcased projects via custom modal with image carousel and smooth transitions.

■ ARIA — Voice AI Assistant (2026)

- Designed and built a Python-based voice AI assistant with real-time speech recognition and response.
- Integrated Groq API for fast LLM inference, pyttsx3 for speech automation, and pytesseract for OCR.
- Created a playful personality with domain expertise in UE5 and game development.

■ ToolZone — Free Online Tools Website (In Progress, 2026)

- Building a modular web platform offering free tools such as PDF Merger and Image Compressor.
- Designed with clean UI, AdSense monetization strategy, and scalable folder-based architecture.

INTERESTS

Game Development • 3D Modeling & Animation • AI & Automation • Web Development • Open Source
